

**“London Studio #2”  
Josefina Nelimarkka / Vittorio Gui**

“**London Studio #2**” is the second appointment of **Ncontemporary**’s showcases dedicated to international artists. For this second exhibition the gallery has invited Finnish artist **Josefina Nelimarkka** (b. 1982) and Italian **Vittorio Gui** (b. 1966) to present their works.

Both artists have used natural elements in their very different artistic researches.

While Nelimarkka has often included the water element in her painting and installation works, Gui has been internationally acclaimed for his flower photos in which he intends to capture the essence of meditation and concentration.

Within “**London Studio #2**” Josefina Nelimarkka will present publicly for the first time “**Deferentials**” a new series of works where canvases are exposed to water before being completed with acrylic, creating abstract composition where the energy of the water battles with the geometric acrylic insets. ”Although the works are, in fact, quite abstract, there’s close-up impressions of gardens hidden in them — or landscapes, that make the point of reference disappear.”

The event is hosted by architecture firm Orproject

9 July – 20 September  
21, Montpelier Street, Knightsbridge  
London  
By appointment only
